

HBIGS 4th Annual Meeting, 29 Mar 2012

Venue: INF 280 (DKFZ Communication Center)

Program

Registration

08:45 - 09:15

Welcome

09:15 - 09:30 Prof. Elmar Schiebel (HBIGS),
Julianne McCall (HBIGS PhD student speaker)

Annual Report

09:30 - 10:00 Prof. Michael Lanzer (HBIGS)

PhD student talks (Session 1)

- 10:00 - 10:15 Ece Gaffarogullari (IPMB)
A turn-on Fluorescence Probe Library for Unraveling the Diastereoselectivity of a Bio-catalytic Diels Alder Reaction
- 10:15 - 10:30 Wendelin Wolf (ZMBH)
Yeast Ist2 is involved in the Formation and Function of Endoplasmic Reticulum and Plasma Membrane Contact Sites
- 10:30 - 10:45 Kristina Haslinger (MPI)
Interactions of Cytochrome P450 enzymes involved in the biosynthesis of Glycopeptide Antibiotics
- 10:45 - 11:00 David Stanmore (Dept. of Cardiology)
The function and regulation of histone deacetylases in the DNA damage-induced death of cardiomyocytes

Coffee Break

11:00 - 11:30

Science meets Sports (in German)

11:30 - 12:30 *Tête-à-tête with Stefan Kuntz* (CEO 1.FC Kaiserslautern)

Lunch, Poster Session

12:30 - 14:15

Young Investigator Lecture

14:15 - 15:00 Jun. Prof. Johannes Krause (University of Tübingen)
What makes us human: insights from archaic human genomes

PhD student talks (Session 2)

- 15:00 - 15:15 Bhalchandra Jadhav (BZH)
Structural and functional characterization of eukaryotic SRP Receptor
- 15:15 - 15:30 Andrea Rocker (MPI)
Bacterial programmed cell death by ϵ - ζ Toxin-Antitoxin systems
- 15:30 - 15:45 Roman Kytik (ZMBH)
The conformation of the Hsp70 chaperones in the ATP-bound state.
- 15:45 - 16:00 Bianca Hennig (BZH)
Cryptic transcription and its link to chromatin remodeling

Coffee Break

16:00 - 16:30

HBIGS Lecture

16.30 - 17.15 Prof. Joseph Penninger (IMBA, Vienna)
From a little mouse to novel medicine

Oral Presentation and Poster Awards

17:30 - 17:45

Reception/Dinner

17:45 - 23:00
