

GRK2727/1 – InCheck

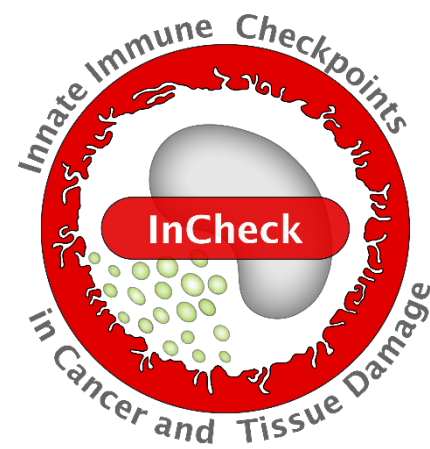

Innate Immune Checkpoints in Cancer and Tissue Damage

Recruitment → open now! 13 PhD Positions at Heidelberg University
Medical Faculties Mannheim & Heidelberg and DKFZ, Germany

Research Areas & Topics

Innate Immunity, Natural Killer Cell and Macrophage Biology

- **Gene Expression Checkpoints**
Post-transcriptional / Epi-transcriptional / Transcriptional
- **Metabolic Checkpoints**
Iron / Hypoxia / Lactate
- **Cancer**
Leukemia / Colon / Metastasis
- **Damage**
Inflammation / CNS Injury / Myocardial Infarction

Highlights

- Emerging scientific topic
- Excellent scientific surroundings and infrastructure
- Structured graduate education in Innate Immunity
- International collaborations with experts from Karolinska/Stockholm and Vienna University
